"WHERE YOUR IDEAS TAKE OFF"

One of the most dynamic and popular games of the year is here. As the name suggests, it involves missile testing your fluid dynamics knowledge.

The event will be held for 2 days:

1. Round 1 : Shoot the Shot
2. Round 2 : Velocity Vector
3. Round 3 : Through the Eye

Round 1 : Shoot the Shot

- Participants must angle their missiles and launch them in such a way that they cover the greatest distance possible.
- In this round, the distance travelled will be the determining factor.

Round 2 : Velocity Vector

- In this round, the player must launch the missile in order to travel the greatest distance in the shortest amount of time.
- This round's deciding factors will be flight time (maximum time possible) and safe landing.
- At the end, the missile's velocity will be calculated, and the top performers will be qualified for the next round.

Round 3 : Through the Eye

- In this round, a ring will be placed at a predetermined distance from the launch point. The participants must launch the missile at an angle that allows the missile to travel to the ring.
- If more than one participant qualifies for this round, the distance from the ring will be taken into account; similarly, if no participants launch through the ring, the distance from the ring will be taken into account.

Rules

- Participants must have to do their work on time. Only water and air must be used which will be provided by the organizers.
- Usage of chemicals and aerated water is strictly prohibited.
- Bursting of bottle or failure in the model while pressurizing will lead to the disqualification.
- Participants must bring their own rocket models.
- Organizers will provide the launcher and the compressor. Only one chance will be given to each team in each round.

Note

- The final decision lies in the hands of the coordinator. Coordinator reserves the right to change the rounds and the rules on the day of the event.
- If a participant misbehaves or does not obey the rules and regulations of the event, event coordinators reserve the right to disqualify the participant.
- Teams should report 30 minutes prior the event.
